

109 Glenwood Boulevard,
Schenectady, N.Y.,
Nov. 8, 1922.

My dear Cummeford:

Herewith I enclose blueprint of fair sketch of my idea of a commemorative monument to Edison, at Menlo Park, N.J., along with copy of my letter, of Nov. 8th, to Insull, which goes into particulars. Please consider the letter (copy) confidential, but use the substance ~~of~~ it as you please.

I also return herewith the Electrical Engineer article, of 1891, by you, with sincere thanks for the loan. I used it for my General Electric Review forthcoming article, and also a great amount of other data; but you will find none of this in the article specifically, for I decided to express the whole matter in a psychological and ethical way, after refreshing my memory on the concrete facts. You did right, or the right thing in the right way, in the expressing of my views as to next award of the Edison Medal.

You mention recent giving of valuable Edisonia to the museum - which is to remark that I have just been appointed, by A. I. E. E., Pres. Jewett, one of the two representatives on the Joint Committee on National Engineering Museum. Heartfelt thanks for your brotherly invitation for family and me to visit your Berkshire home - which we trust will come to pass.

Sincerely yours,
Chas. L. Clarke
